Packaging applications

Industry overview:

Grey board / chipboard is used in various applications. Among others, the board can be used in edge protectors, corrugated boxes, and honeycomb structures or as sheeted material in diverse end uses. Different applications usually require different

board properties when it comes to for instance density and smoothness of the board or accurate moisture and thickness profiles. Whatever the end use might be, Corenso has the

Why choose Corenso:

Corenso has the technical expertise and products to meet your varying needs. We have modern and technologically advanced board machines in France, Finland, and in the USA. We do everything for our customers: our dedicated sales and customer service teams always work to satisfy your demand. The consistently positive results of our customer service surveys show that our customers agree. We truly want to be your first choice.

End use areas

- Edge protectors
 - High bulk / low density board
 - Square sheet / flat profiles
 - Good stacking strength
- Pallet sheets
 - High bulk / low density board
 - Square sheet / flat profiles
 - Works well in automated machines
- Writing pads
- Partitions / divisions
- Corrugated packaging
 - Square sheet / flat profiles
 - Good stacking strength
- Honeycomb structures
 - High stiffness
- Laminated / polycoated sheets
 - Good dimensional stability
 - Smooth surface

**More than
the core.**

Reliability

- High and consistent quality
- Strong board-making expertise
- Board with high bulk and yield, which guarantees value for money

- Continuous improvement practices
- On-time and accurate deliveries
- Sharing best practices

Trust

- Flexibility
- ISO certifications
- FSC certification in part of the mills for traceability of raw material
- 100% recycled board

- Dedicated sales and customer service team always at your service
- Full technical assistance for trials and whenever needed

Commitment

- Corenso is your long-term partner striving to find the optimal solutions for your business

- Powerflute is committed to investing in and developing the business
