## Textile applications

### Industry overview:

There are a number of stringent technical requirements on textile cores, including ring crush, stable size and weight, special designs, and the need for high winding speeds. Another common demand is to adapt to quickly changing production needs. Corenso meets all these challenges for customers across the globe.

### Why choose Corenso:

Corenso has been supplying the industry for already 10 years. We make cores especially for spandex yarn, PET industry yarn and PET tire cord as well as non-wave fabrics.

As a global industry leader, we are also committed to helping our customers reduce their costs and improve the efficiency of their own production processes.

**More than  
the core.**

## Reliability

- High and consistent quality
- Continuous improvement practices

- On-time and accurate deliveries
- Sharing best practices

## Trust

- Flexibility
- ISO certifications
- Dedicated sales and customer service team always at your service
- Full technical assistance for trials and

- whenever needed
- We know the machinery suppliers and can supply the right cores for specific machines

## Commitment

- Corenso is your long-term partner striving to find the optimal solutions for your business

- Powerflute is committed to investing in and developing the business

## Value-added services

- Stock management
- Core handling
- Returnable packaging
- Customised deliveries

- Core Audit
- Surface treatment
- Anti-moisture core

## End use areas

- Spandex
- Non-wave fabrics
- Specialties
