Corenso China: new General Manager to take the lead & investment in Foshan to strengthen product offering in South China

Corenso is pleased to welcome Mr Simon Xie as the new General Manager of Corenso China. Simon will lead the three core plants in Hangzhou (Zhejiang province), Suzhou (Jiangsu province), and Foshan (Guangdong province) as they pursue our strategy for future development and growth in the region. As part of this plan for growth, we are pleased to announce that a new production line has been installed in Foshan to manufacture parallel wrapped seamless cores, meeting the highest requirements of the flexible packaging industry.

Simon's predecessor as General Manager, Ms Meihua Fang, who has done a great job in developing and leading the Chinese operations through often turbulent market conditions, will begin a well-deserved retirement.

About Corenso: Corenso is one of the world's leading producers of high-performance cores and tubes as well as high-quality coreboard and packaging board. Corenso operates three coreboard mills and fifteen core converting plants, covering strategic locations in Europe, North America and China. All Corenso products are made from recycled raw materials, designed to meet the specific needs of various industries. Our operations are based on long-term partnerships with customers, continuous development and innovation.
