

## Applications areas for Corenso cores:

### Paper and board

This is an industry with significant technical requirements and often changing production needs on very short notice. The industry also faces challenges when it comes to efficiency improvements and cost reduction. Dedicated to working with each and every customer to meet their needs, Corenso is a partner you can trust.

#### **Why choose Corenso:**

Corenso's background is in the paper and board industry. In fact, we have been supplying customers in this industry for decades. We produce cores up to 11,000 mm in length, for reels up to 10 tons of weight and up to 350 mm in inner diameter. Our strong dedication to continuous research and development helps us measure among others crush tests, E-modulus, roundness, straightness, and radial crush. The collected data is used in our quality control and product development processes and provide basis for further improvements.

#### End use areas

- Packaging paper: certificate for indirect food contact and hygiene requirements
- Graphic paper: high speed and high strength
- Board: large diameter cores
- Tissue: endurance (re-use)
- Specialty paper: smooth surface

#### Reliability

- High and consistent quality
- Continuous improvement practices
- On-time and accurate deliveries
- Sharing best practices

#### Trust

- Flexibility
- ISO certifications
- Dedicated sales and customer service team always at your service
- Full technical assistance for trials and whenever needed
- We know the machinery suppliers and can supply the right cores for specific machines

#### Value-added services

- Stock management
- Core handling
- Core cutting
- Core joining
- Re-cutting
- Returnable packaging
- Customised deliveries
- Core Audit™
- Surface treatment
- RFID
