

Applications areas for Corenso cores:

Textile

There are a number of stringent technical requirements on textile cores, including ring crush, stable size and weight, special designs, and the need for high winding speeds. Another common demand is to adapt to quickly changing production needs. Corenso meets all these challenges for customers across the globe.

Why choose Corenso:

Corenso has been supplying the industry for already 10 years. We make cores especially for spandex yarn, PET industry yarn and PET tire cord as well as non-wave fabrics.

As a global industry leader, we are also committed to helping our customers reduce their costs and improve the efficiency of their own production processes.

End use areas

- Spandex
- Non-wave fabrics
- Specialties

Reliability

- High and consistent quality
- Continuous improvement practices
- On-time and accurate deliveries
- Sharing best practices

Trust
